

ROOMZ SA is a fast-growing company from Switzerland. We help companies manage their workspaces efficiently while boosting employee satisfaction. Our solution is a combination of easy-to-install, cable-free and elegant meeting room displays, accurate presence sensors and innovative SaaS software. The system can easily be connected to any existing calendar software such as Exchange, Office 365 or other booking systems.

Are you passionate about embedded products, computer networks, data processing and analysis, in short, IoT? Are you curious by nature and have an affinity with new technologies? Are you looking for an exciting new challenge in a dynamic team?

If so, submit us your application today as a

Embedded Software Engineer – IoT (m/f, 80-100%)

In this varied position, you will contribute to implementing new functions and innovations in our offering, as well as connecting other types of IoT products with our existing platform. The whole team will actively support you in your activities.

Your tasks

- Design and development of embedded applications for our existing solutions (display and sensors)
- Debugging of embedded applications in real time and remotely
- Creation and maintenance of tools for the management of our fleet
- Setting up drivers with other types of sensors and communication protocols
- Interfacing products with the ROOMZ platform

What you bring

- HES/EPF engineer in electronics / microtechnology / computer science or equivalent
- A passion for the development of embedded applications
- Proven knowledge in embedded software in C language
- Good theoretical knowledge of how a microcontroller works
- Knowledge in data processing and transmission
- Knowledge of Python language and DevOps tools is a plus
- Knowledge of Wi-Fi and LoRaWAN technologies is a plus
- Strong analytical skills, problem solving
- Reliable, trustworthy, and autonomous
- Positive, open, and enthusiastic attitude
- Curious, quick understanding, team spirit

How we support you

We value your commitment by offering you an exciting and stimulating work environment. Our shared values should help you to do this, because at ROOMZ we live and nurture ...

- ...an open and transparent culture with virtually no hierarchy.
- ...a flexible and hybrid working model, of course "powered by ROOMZ".
- ...the opportunity to contribute with your own personality and creativity.
- ...targeted training to develop your potential even better.
- ...professional, respectful, and friendly interaction with each other.
- ...free coffee and fondue, unforgettable experiences, and team outings.
